- POSTMAN

Soft Skills

- Responsibility
- Critical thinking
- Diligence
- Persistence
- Time management
- Adaptability and flexibility

Languages

- Ukrainian - Native
- English - Intermediate

Vilhota Alina

Front-end Developer

Summary

I am a junior front-end developer looking for a job that will allow me to develop and acquire new knowledge in the IT industry.

I have always been curious about the processes that take place "behind the screen", which are unavailable to the average user. I enjoy creating websites and apps that make people's lives a lot easier. Learning, development and results orientation are my priorities in both life and work. Being part of the team also plays a significant role from my point of view because teamwork is the key to success. I always try to be open to new challenges and tasks and perform them with a high standard.

Project experience

Web-studio - website, Link

(HTML, CSS, SASS, Java Script, FIGMA)

First personal project

A website with a responsive layout and CSS animation. HTML markup and design of the elements for the form. Build a project on GitHub, check for build errors and live page performance.

MIMINO - website, Link

(HTML, SASS, Java Script, FIGMA, Vite)

A website for the MIMINO restaurant-hotel complex

Role: Creating a Hero section on every page of the site

Create an adaptive layout, connecting and optimizing photos, setting a hyperlink to the address of the Mimino restaurant-hotel complex on the map.

Your Pet - website catering to pet owners, Link

(React(hooks), React-Router-Dom, Styled Components, Emotion-Styled, React-Redux, Redux-Persist, Formik, Axios, Node.js, Mongo DB, Mongoose, Yup, Express.js, Swagger, Webpack)

Role: Scrum Master, Front-end / Backend Developer

Implementation of user registration on the frontend and backend part, checking the validity of entered data, outputting notifications to the user, issuing a token. Implementation of a modal window greeting with successful registration. Connecting react-loader-spinner and redux-persist library.

Cinemanial - web application , Link

Role: Front-end Developer

(Html, CSS, CSS Sprites, JavaScript, Axios-library, API, Parcel, GitHub)

A web application designed for easy movie search allows users to watch trailers and create their own movie library. In this project, I was involved in the implementation of the Menu for all versions of the screen and the installation of the download icon

Phone book - web application , Link

Personal Project

(Html, CSS, JavaScript, React.js, React-hooks, React Router, Redux, Redux-Toolkit, Redux Thunk.)

The "Contact Book" is a convenient application for storing phone numbers.

With this application, you will be able to: -adding new contacts to your contact list; -sorting existing contacts; -search through the contacts list; -delete or edit outdated information;

Work Experience

Senior salesman

Chain of jewellery stores "Golden Country"| 2020 - 2022

- communication with clients
- carrying out an inventory of goods
- sale of jewellery
- receiving and sending jewellery
- working with a cash register
- closing cashier shift

Achievements: during my work, our team and I raised the rating of the store to the top 3 jewellery stores of the year and received the award of the best employees
